Forecast for Wednesday 26 Jan 2022

Weather: A few clears spells persist across eastern hills but generally cloudy overnight with patchy light drizzle at times in the west. Little change through the day mostly cloudy with patchy light drizzle at times over western hills, but some brighter or sunnier spells in the east. More persistent rain is expected to spread southeast later in the evening.

Chance of cloud free mountain/hill tops above 600m: 40% in the west but around 70% in the east.

Visibility: Periods of cloud above 450-600m, but more patchy in the east. Otherwise visibility rather hazy under the cloud falling to just a few kilometres in drizzle and late evening rain.
